## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  1. Claims 1-4, drawn to a method of averaging errors in an array, classified in class 702, subclass 32.
  2. Claims 5-8, 11-13, and 15-17 drawn to a method of detecting outlier values in an array, classified in class 702, subclass 32.
  3. Claims 9-17, drawn to a method of averaging differences in an array, classified in class 702, subclass 32.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions 1-3 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different methods that comprise different steps and produce different results.
3. Because these inventions are distinct for the reasons given above and the search required for Groups 1-3 are not coextensive, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Joseph Lerch on 15 August 2003 to request an oral election to the above restriction requirement, but did not result in an election being made because the phone system was overloaded and the telephone call could not be completed.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Brusca whose telephone number is 703 308-4231. The examiner can normally be reached on M-F 8:30-5:00.
